LOCAL AND GENERAL NEWS ITEMS

Boost for the Fair!

Reciprocity is the issue, Buchanan is the man, and Sept. 21st is the date.

Now is the time to begin getting your goods ready for the Fair.

The Raymond Agricultural Fair commences on Monday morning next.

Mr. Ethelbert Fairbanks, of Salt Lake City, Utah, was a visitor in town this week.

Mr. Aaron Alfred came in on Tuesday morning's train, from Utah and will remain here until the harvesting is over.

Mr. Ray Knight drove Mr. Stephen L. Richards, Representative of the General Board of Sunday Schools, to Cardston on Sunday morning.

The man who gets mad at what the newspaper says about him should return thanks three times a day for what the newspapers know about him and suppressed.

NOTICE.

All Band Members are requested to meet at the Opera House, Saturday evening at 8.30. Special business to be transacted.

Have your own paper, editor and he will serve it in a mode. In case you do not happen to meet him, use the telephone or the mail. You will be helping to make your town paper of greater interest and thereby serve the general community. Whatever news may interest you must surely interest many others.

A large number of people from the Taylor Stake attended the Sunday School Convention which was held at Cardston on Sunday last. They were—Stirling 12, Magrath 20, Welling 16 and Raymond 40. These people were shown a very good time by the Cardston people and all will remember the good people of Cardston for their hospitality.

Every school boy knows that a kite will not fly unless there is a string tying it down. It is just so in life. The man who is tied down by half a dozen blooming responsibilities and their mother will make a higher, stronger fight than the bachelor, who, having nothing to keep him steady, is always floundering in the mud. If you want to ascend in the world, tie yourself to somebody.—E.X.

Heaven help the man who imagines he can do enemies by trying to please everybody! If such an individual ever succeeds pass him over this way that we may have one look at his mortal remains ere he vanishes away, for surely this earth cannot be his abiding place. Now we do not infer that one should be going through this world trying to find beams to knock and thump his head against, disputing every man's opinion, fighting and elbowing all who differ from him. That, again, is another extreme. Other people have their opinions so have you. Don't fall into the error of supposing that they will respect you more for turning your coat every day, to match the color of theirs.

There may be others, but the place to get your new Fall Hat, is at the Merc.

Boost for the Fair!

Write this down where you'll see it every day. The time to draw business is when you want business, and not when you have more business than you can attend to already.

Get your goods to the Fair Grounds early Monday morning.

Let us work and stimulate every legitimate enterprise by giving it all the friendly encouragement we can, and unite our industry, intelligence and capital in a common cause for the good of our town.

Don't forget the Fair.

Mr. Wm. Nalder, who had his leg broken last month, is now able to be around on crutches.

When the common earth worm is cut in two, he woe make a fuss about it; but to the tail end will grow a head and to the head end a tail. Misfortune often doubles our strength.

KNIGHT ACADEMY LOCALS.

The second Academic school year has opened. But what a dismal opening! The weather simply kept the students at home, but with the sun out again, students are coming in.

Last week, members of the faculty gave an evening at Magrath, consisting of music and dramatics and short talks.

Bishop W. S. Johnson, of Leonard, reports a large number of prospective students from his ward this year.

Several entrance examinations were held on Tuesday and Wednesday last week, with fairly good results to students.

Instructors Woolf and Wright arrived from the Chicago University on Tuesday forenoon of last week. They report excellent results in their work.

The faculty have voted to give a series of recitals, operas, oratorios, dramatics, and parties, for the purpose of assisting the educational board in equipping the several departments.

The revised course of study from the Province is out, which makes it necessary for the Academy to revise its course to meet the requirements of the departmental examinations. And this has been done, hence students will register under the new high school system.

The Academy is thankful for the few leads of cinders put on the pathway from Broadway to the Academy. We are now assured of a better walk soon.

And now let's all pull for the Knight!

The Allies Storming the Fort.

Reciprocity— what it means.

This all-important question of reciprocity with the United States is undoubtedly the biggest and gravest issue that the electorate of Canada have been called upon to decide. The Leader has taken time to view the matter from all sides—to study in fairness and without bias the respective advantages and the alleged disadvantages of the proposed Compact—in order to pass judgment as in one who is not prejudiced to advance the cause of the Dominion of Canada—not merely Alberta or the Western part of that Dominion—but the country as a whole—the country as an integral part of the Great British Empire. No one will deny that it is a big question! None can deny that upon its decision hinges to a large extent the prosperity and immediate welfare of Canada. We have looked upon it with this thought in mind; we have read and re-read what has been said pro and con with this verdict before us and we cannot see, in all fairness and with due deference to the Conservative Party, any justifiable reason why reciprocity with the United States in natural and farm products with a judicious reduction in manufactured articles and farm implements is not a good thing—the best thing that has ever been presented to the Canadian people.

We recall the recent trip of the Honourable, the Premier—Sir Wilfrid Laurier—through Western Canada a little over a year ago. At Brandon the Manitoba Grain Growers presented the Premier with elaborate memorials in which they set out (1) that nothing had so retarded western progress as protection and urged free trade with Great Britain and the United States and (2) "that there are no trade relations our Government could enter into with any country with better advantages to the farmers of the west than a wide measure of reciprocity towards the United States". In his answer Sir Wilfrid used these words: "As to reciprocity our Government is prepared to meet the United States, with one important condition, which is that the British Preference stands firm, and last and all the time."

This was on July 18th, 1910 and yet our Conservative friends would have you believe that this question was sprung on the people of Canada without any warning. Keep in mind also the fact that by the proposed terms of

the Pact the British Preferential Arrangement remains in statu quo. At Saskatoon on July 20th the Saskatchewan Grain Growers made similar demands and requested reciprocal trade with the United States. We might continue all along the line of his western tour in the same strain. At Weyburn on August 2nd (1910) the District Grain Growers in their memorial described Protection as wrong and asked for freer trade and United States Reciprocity, using these words: "We hope the Government will be able to the secure for us this valuable market". Space will not permit further references.

At the tour and followed the request made will remember that reciprocity with the United States was a pronounced issue and a general demand for the same was made not only personally to the Premier while in the West but also when he returned to the seat of Government where the farmers went one thousand strong and voiced the same sentiments they had uttered in their petition and memorials. Suffice it to say that reciprocity was the Farmer's call. The farmers demanded it. Even the Hon. R. L. Borden, Leader of the Conservative Party, met it on all sides while in the west. Petitions were presented to him asking him not to oppose the passing of the reciprocity compact as it was in the best interests of the farmers and directly along the lines of one of their most important needs. Notwithstanding this, the Conservatives so bitterly and obstinately opposed the Government's work that the issue was forced to the polls and Writ of Election issued.

Now what does it mean? It means simply this and nothing more—that the farmers have placed at their doors another market for their natural products—the United States of America. It simply means that they do not have to take advantage of that market if prices are not better than the home market or the British Market or the Oriental Market—but the market will be there to enjoy if perchance prices should be better. The compact does not force the farmer to sell his produce to the United States and he will only take advantage of that market when it is in his best interests to do so. Those who argue that our trade will be diverted north and south must confess that if that logically follows then as another logical sequence the United States will be giving the Canadian farmer more for his produce or the Canadian farmer will not patronize that

market. Keep this in mind.

We need not dwell upon the Annexation Bogey—it has pretty nearly played itself out and the remarkable thing is that it has lived so long in the midst of intelligent people.

Rest assured that the fellow who begins to talk Annexation with you has run out of political ammunition. The only question that the electors have decided is as to whether or not they desire freer trade relations with the United States. In the British market, which the Conservatives will tell you is the best market for Canada, we are meeting on an equal basis all nations of the world. Great Britain today has open ports for all. If the Conservative tells you that we shall be flooded with Argentine beef and Argentine wheat just remind him that in the very market that he would have you deliver the goods—Great Britain—you are right up against Argentine wheat and Argentine beef on an equal basis, and if we can meet them there why not be able to meet them in the United States of America or at home or any other place in the wide world.

It is somewhat of an insult to the intelligence of our readers who are personally familiar with conditions on the other side of the line to tell them that the prices prevail higher than here. They are wise to this fact and it is for this reason they have been continually urging the Government to negotiate Reciprocal relations with the United States. The time has come and the candidates are in the field, Mr. Magrath opposing reciprocity and Mr. W. A. Buchanan supporting it and pledged to work for its enactment if elected. It is for this reason that we endorse the election of Mr. Buchanan and urge the electors of this town and district to vote for him on the 21st day of this month. He is pretty well known as Editor and Managing Director of the Lethbridge Daily Herald—a newspaper that by its broadmindedness and fairmindedness and "boosting-mindedness" has done much for this part of Alberta. Mr. Buchanan is a capable man in every way and one in whom the electors can place the utmost confidence, knowing that he will work to the best of his ability for the district and people. Not a word have we to say against Mr. C. A. Magrath. He is an honourable man, well known, well liked, but he is opposed to that which appeals to us as being for the best good of the people and in this we believe that he is not in harmony with the wishes of his constituents. We believe that the people of this district want reciprocity. His Conservative friend on the west, Mr. John Harron, believes the same thing and says that if elected he will support the compact. His Conservative friend on the east Mr. F. W. G. Haultain, Conservative Leader in the Province of Saskatchewan, endorses reciprocity, so that Mr. Magrath must not feel offended if some of his Conservative friends in his own riding find it necessary to cast their ballots for W. A. Buchanan this election.

Council Meeting.

The regular monthly meeting of the town council was held Thursday night last in the council chamber. Mayor Young presided and Councillors Allen, E. C. Card, Hawkins, McDuffee and Rolfe, and Solicitor Laurie were present.

In response to the advertisement for tenders for the construction of a dam and reservoir at the spring in connection with the town water works system, D. P. Skouson submitted an offer to do the work at 25 cents a cubic yard. At this rate the council thought that \$350 or \$400 was an outside estimate and Mr. Skouson's tender was refused.

C. W. Card petitioned the council for a flat rate on water for his livery and feed stable. A rate of \$4.50 per month was struck.

The matter of heavy engines run over culverts was brought up by C. W. Card, chairman of works and property committee. It has been the habit of owners of threshing and plowing engines to disregard the use of plank on culverts as the law requires, and measures will be taken to have the law enforced.

Councilman McDuffee, for the police committee, called attention to the fact that cows were in the streets of the day allowed to run at large and as a result, trees and gardens have suffered considerably. The town marshal was empowered to engage a competent man to drive cattle from the streets to the pound, the usual driving fee. A by-law was discovered whereby an offender can be prosecuted, and Councilman McDuffee gave notice that at the next meeting of the council he would move to amend by-law No. 12 relating to the driving of stock to pound, so that the clause reading "on request of a ratepayer" will be struck out.

Councilman Fox for the fire, water and light committee, reported that a man was needed to run the pump at the spring. Several applications were laid on the table but H. Pieppgrass received the position, his offices to be retained by the council till such time as the work on the roads is completed, when Ray Powell will be engaged for the position.

A resolution signed by C. D. Fox and C. W. Card for fire, water, and light committee was received and adopted. It is as follows:

"That the report of the Secretary-Treasurer be accepted and that the cost of the watermain asked for in the petition of the Security Investment Company, Limited, and others be fixed at \$5925.00.

And, that the cost of the watermain asked for in the petition of W. E. Stevens and others be fixed at \$6050.00.

And that the Secretary-Treasurer proceed to issue the necessary assessment notices.

And that Thursday, Oct. 5th, 1911, at 7:30 p. m. be set as the time for holding Court of Revision for hearing appeals against the said assessment."

A number of accounts from the finance committee were ordered to be paid.

Council adjourned to meet on Thursday, Sept. 14th.

Correspondence.

Lethbridge, Alta.
Sept. 9th, 1911.
Editor of the Leader.

In your report of my remarks on Saturday evening, you quote me as saying, "The Ellison Milling Co. have never made a dollar on one bushel of wheat or sent to the Eastern markets."

Now as the above quotation hardly conveys the meaning intended I think you must have made a slight mistake in quoting my remarks, as you can readily see that it would be almost impossible for any one to make a dollar a bushel on wheat. Now as I read my remarks from paper I am able to supply you with a copy of the exact words used, which are as follows, referring to Alberta:

"Ask any of the elevators or mills where they sell their product to advantage, and they will tell you on the B. C. markets, I had I am free to say that the Ellison Mill never made a dollar in any Eastern shipments based on Liverpool prices."

Now in the course of my remarks I also told of the amount of wheat we bought at Raymond and how and why we were compelled to reach out and over grade in order to hold the wheat for milling purposes, and the idea I tried to convey was that we were able to sell our product to advantage in the home markets of B. C. and that eastern markets and Liverpool prices were not profitable.

Yours truly,
Geo. W. Green.

We are very sorry, Mr. Green, if we have done anything that was offensive to you, but we sincerely hope that you said on that occasion. You may have had the above sentence written on your speech, but we quoted the words used by you at that time. Of course all present knew what you meant, but it was what you said that amused the audience.

The Editor.

Additional Locals

A new suit and a new hat will make any man look nice, but you will look real smart in one of those suits that you can get at the Merc.

A large house greeted Paul Gilmore in the "Mummy and the Humming Bird" at the Opera House here on Tuesday evening last. The manner in which this play was put on has been the talk of the town for the past two days. Mr. Paul Gilmore played the part of Lord Lumley in a style that was very pleasing to all. The Opera House management are entitled to much credit for procuring such a good show, and we hope that in the future plays of this order will be given here.

We have a few screen doors left that we are closing out at a discount of 20 per cent.—The Merc.

"Jack o' Diamonds" or "Forgiveness," Friday night, the Society play, "The Parisian Princess," and Saturday evening the king of plays, "Corianton." This is the famous play written by O. P. Bean. A story from the Book of Mormon presented in Salt Lake City. The Walter Stock Co. have secured the rights for this play and have all the scenery and costumes and original music. Some of the members of the Walter Stock Co. are—Luke Cosgrove, Sarah Delmar, W. C. Walcott, Edith Lindsay, Wm. Ellingford, Mabel Cooper, E. H. Fitzgibbons, Harry Jackson, Deal Walters.

The Raymond Public School.

Rank of Lumber Provinces 1910.

The total lumber cut of the Dominion of Canada for 1910 has just been compiled by the Forestry Branch. Reports were received from 276 firms operating sawmills which is nearly 700 more than reported last year. Thus the 1910 report is a better estimate of the actual lumber production than ever before. Nearly five billion feet of lumber was cut during 1910 throughout the nine provinces of Canada, which represents a total value to the country of seventy-seven and a half million dollars. This is about fifteen million dollars more than the value of the 1909 lumber cut. Ontario, as in former years, holds the premier position as a lumber province. Its forests are made up of diversified species, which enabled it to produce one-third of the lumber for the Dominion.

British Columbia, however, will soon take Ontario's place, from predictions made on the 1910 report. In 1909, the Western province produced a little over half as much lumber as was cut in Ontario, while for last year the amounts returned from the two provinces were practically the same. Although one-quarter more lumber was cut in Quebec in 1910 than in the year previous, the increase was not sufficient to maintain it in second place of importance, which position was usurped by British Columbia. The remaining provinces New Brunswick, Nova Scotia, Saskatchewan, Alberta, Manitoba and Prince Edward Island cut lumber in the order of importance given, but together supply only one-sixth of the amount for Canada.

The Walters Stock Co. will open a three nights engagement Thursday, Sept. 14th at the Raymond Opera House with the celebrated play of "Forgiveness" or the "Jack o' Diamonds," and Friday night "The Parisian Princess."

The new shipment of fancy linens are the best values yet. The Raymond Merc.
